Device / Gerät Battery charger and trickle-charger

Unit name / Gerätename	Battery Charger Trickle Charger EL11
-------------------------------	---

Part No. / HTZ/TKZ	EL11.142 100
---------------------------	--------------

NSN/NATO Stock Number Versorgungsnummer	6130-12-356-2760
--	------------------

product description Produktbeschreibung	<p>Charger according to VG 96960 constructed for wall or transportation-frame mounting. Water and dust protected according to IP65. Equipped with 7 pole connector fitting to cable 6150-032E, D, F; 6150-033E.</p> <p>The charger is microprocessor-controlled. The charging curve is temperature and cable length compensated. Vehicles and Battery-sets may remain on charge for unlimited time without battery damage (Long term storage). The charging curve is optimized for gelified and vented NATO-batteries.</p> <p>A wide range entry (100-260VAC) is optional (Part-No.: EL11.152 100)</p>

Technical date / Technische Daten	
size (L x B x H) in mm / Maße	350x180x170
Weight / Gewicht	4,6kg without battery-connection cable
Output connector / Ausgangsstecker	CA3102E16S-1P-B-F80 (7 pole)
El. Values / Elektrische Anschlußwerte	Input : 230VAC 50 bis 60Hz Output : 24VDC 10A/1A
Software-Version date / Datum	12.11.2007
Operating instructions	315 062 002 006 (english)
Bedienungsanleitung	315 062 001 006 (german)
