<b>Gerätename / unit name</b>	<b>Charger Trickle Charger UL30F</b>
<b>HTZ/TKZ / Part No.</b>	UL30F.042 109-0037
<b>Versorgungsnummer NSN/NATO Stock Number</b>	6130-12-399-1912
<b>Produktbeschreibung product description</b>	Battery Charger and Trickle Charger, Micro-Processor controlled, according to the special requirements of the French Army. The charger is devised for 24V wheeled armoured vehicles or trucks. The charger is built into an IP65 aluminium housing, equipped with strong magnets, which enable fixation on the the vehicle outside during the charging process. The charging cable is fixed by VG connector 7-pole size16S. The charging process is temperature and cable-length compensated. The charger is shock and vibration tested and foreseen for permanent transport on the vehicle. Batteries may remain clipped to the charger for indefinite time without being damaged.
<b>Technische Daten / technical date</b> Maße (H x B x T) in mm / size	220 x 120 x 115mm Connector Charger side: CA3106E16S-1SN Length of net-cable 5m
Gewicht / weight	2,3kg
Elektrische Anschlußwerte / El. values	Entry: 230VAC ±10% 50/60Hz, CE, 500VA max. Exit: 24VDC 8A/1A
Software-Version Datum / date	26.10.2012
Bedienungsanleitung operating instructions	French, English, German
